

Free Hot Water

Summary

Students deserve free hot water: Why are we not as modern as other universities?

Details

Please can you arrange machines/hot water taps, that dispense hot water. It is very expensive to buy tea every day in the SU at Starbucks prices. Those who can't afford this, should have access to hot water. Also, this facility would enable us to heat pot noodles/instant soups etc, greatly improving the facilities provided by the SU for all students. This is a facility that is provided at most UK and international universities. There is no reason for Aber to be lagging behind...
